EXPERIENCE

AI/ML Engineer Feb 2025 – Present
Redwoods.ai *Hyderabad, India*

- Designed and deployed a Retrieval-Augmented Generation (RAG) system using LlamaIndex and Qdrant, improving query precision by 35% over keyword-based search.
- Built a scalable document ingestion service handling large files via asynchronous pipelines and chunked embedding to overcome LLM token limits.
- Developed LangGraph-based AI agents with features like autonomous web search, document retrieval, and backend action triggering.
- Created a supplier onboarding AI agent automating ESG report analysis, FAQ generation, and missing data extraction from company websites.
- Optimized model serving with parallelization and request batching, reducing response latency by 40%.
- Delivered multiple end-to-end ML models — dataset creation, training, evaluation, and production deployment.

Python Developer Jul 2024 – Jan 2025
ITMTB Technologies Pvt. Ltd. *Pune, India*

- Developed automation and data migration pipelines integrating client data and syncing product listings across Shopify and Myntra via APIs (Increff, Clickpost).
- Built REST APIs and AI-powered scripts for automated product creation and SEO content generation, cutting manual effort by 80%.

KEY PROJECTS

- **AI-driven Resume & Job Matching Agent** – Website
  Built an AI agent that compares resumes against job descriptions using LlamaIndex + OpenAI embeddings, computes fit percentage, and provides improvement suggestions. Code
- **End-to-End RAG Service with Knowledge Hub** – Designed a complete ingestion + retrieval pipeline using LlamaIndex and Qdrant, enabling enterprise document search, RFP automation, and structured data QA.
- **PDF Processing with YOLO + OpenCV** – Trained a YOLOv8 model on CAD/document datasets to detect tables and figures; implemented OpenCV-based redaction preserving document layout. Code
- **Hybrid Web + Document Research AI Agent** – Developed LangGraph-based multi-agent system combining web crawlers and internal KB search to deliver contextual answers for supplier onboarding workflows.

TECHNICAL SKILLS

Programming	Python (Pandas, NumPy, Asyncio)
AI/ML Frameworks	PyTorch, Scikit-learn, LangChain, LangGraph, LlamaIndex, LangSmith
Generative AI / Vision	RAG Systems, Multi-agent AI, LLMs, YOLOv8, OpenCV
Web/Backend	FastAPI, Flask, REST APIs
Databases	PostgreSQL, MySQL, Qdrant (Vector DB)
Cloud / DevOps	Docker, AWS S3, Azure Blob Storage, Git, CI/CD

EDUCATION & CERTIFICATIONS

B.E. in Computer Science and Engineering, Dr. AIT, Bangalore 2020 – 2024 (CGPA: 8.33)
Certifications: LangGraph (IBM), Machine Learning (Coursera), LangChain (DeepLearning.AI), Advanced Learning Algorithms (Stanford)
